PROFESSIONAL SUMMARY

B.Tech graduate in Computer Science & Business Systems (CGPA: 9.49) specializing in Python, FastAPI, LangChain, RAG pipelines, and multi-agent AI systems. Experienced in building and deploying full-stack AI applications including a GenAI career platform and agentic healthcare report analyzer. Seeking Backend, GenAI, AI/ML, or SWE roles.

TECHNICAL SKILLS

Languages:	C, C++, Python, JavaScript
Backend & Web:	Django, FastAPI, REST APIs, HTML, CSS, Bootstrap
AI / ML:	Large Language Models , NLP, Hugging Face , RAG, Prompt Engineering, LangChain, ChromaDB
Databases:	PostgreSQL, MySQL, MongoDB
Data Analysis:	NumPy, Pandas, Matplotlib, Seaborn
Tools & Deployment:	Git, Docker (Basics), Railway, Render
Networking:	Routing, Switching, Subnetting, VLANs, TCP/IP, OSI Model, Cisco Packet Tracer

EDUCATION

Medicaps University, Indore, MP 	2022-2026
<i>Bachelor of Technology - CSBS </i>	<i>CGPA: 9.49</i>
<i>Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks</i>	
XII (CBSE) Ajmera Mukesh Nemi Chand Bhai School, Indore MP	86.60% 2021
X (CBSE) Ajmera Mukesh Nemi Chand Bhai School, Indore MP	79.80% 2019

EXPERIENCE

Computer Networking Intern Medicaps University – Cisco Networking Academy 	June – July 2025
- Configured 16+ routers and switches using Cisco IOS, applying OSPF, VLANs and subnetting across multi-device topologies in Packet Tracer - Completed 3 CCNA modules; diagnosed 15+ network failures improving lab efficiency by 40% through structured troubleshooting documentation.	

PROJECTS

CareerForge AI – Forge Your Career Path	GitHub Live Demo
<i>FastAPI, LangChain, LLMs, Python, NLP, Vector DB, HTML/CSS/JS</i>	
- Developed GenAI module for resume ATS scoring, role matching, and automated career roadmap generation, reducing manual planning time by 70%. - Architected FastAPI pipelines with LangChain integration, generating structured PDF outputs with sub-3-second response times and Hugging Face resume embeddings. - Implemented RAG-based interview module with chat and voice support using personalized question generation and LLM-based answer scoring.	
MediScan AI – Decode Health Reports	GitHub Live Demo
<i>FastAPI, Python, NLP, LangChain, ChromaDB, HTML/CSS/JS</i>	
- Built a multi-agent system classifying 100+ medical parameters from PDFs with 95%+ accuracy; engineered a RAG pipeline reducing redundant API calls by 35%. - Designed a health plan module combining report insights and user inputs to generate lifestyle, diet, and follow-up recommendations with PDF export.	
AcoCheck – Real-Time Resident Tracking System	GitHub Live Demo
<i>Django, PostgreSQL, Bootstrap, Render</i>	
- Developed secure multi-role platform with Django authentication and role-based access control across 3 user roles (Owner, Police, Admin), managing 100+ resident records - Deployed on Railway with PostgreSQL, achieving 99% uptime and supporting real-time status tracking for hostel management workflow	

CERTIFICATIONS

IBM Generative AI Engineering – Coursera	CCNA (Modules 1–3) – Cisco Networking Academy
DevOps Mastery Specialization – Coursera	Python Essentials 1 & 2 – Cisco Networking Academy
IBM RAG and Agentic AI – Coursera	Introduction to Cybersecurity – Cisco Networking Academy

ACHIEVEMENTS

- Practiced data structures and algorithms on **LeetCode**, **GFG**, and **Coding Ninjas**, strengthening **problem-solving** skills.
- Earned 6 certifications from **IBM** and **Cisco Networking Academy** in Generative AI, RAG, DevOps, Python, Cybersecurity, and CCNA networking.

LANGUAGES

Hindi, English
